*Nature is really nice and bright
Just look at the flower right near you
Nature is really bright and light
Can you see or not
So come..I will show you...*

*I will make a kiddush Hashem wherever I go
I will stay pretty on Shabbat
Like in the spring, when flowers are pretty
Flowers grow... and I grow...
Like when I am in 1st grade & then I go to 2nd grade
I know new things & smarter things now!
Sometimes flowers grow...
First a seed, then a root...stem..leaves
And then...a pretty flower pops up!*

*In the spring, lots of things grow
These are some that I know
Fruit, vegetables and flowers and
grass...*

*Time passes as we grow
We leave...
Smarter, kinder, more religious
A better Jew
A different person
A different mind
Thank you, Yeshivat Ohr Haiim!*

People are like flowers
Flowers need sun,
water and oxygen
And our needs are like
Princesses of hshem...
We need to do misvot
Sedaka...and much tefilla...

*I am like a flower, I start out very small
And then when I am bigger, I am nice and tall
A flower is nice, I think I am too
But I have to work for it, It does not just come to you!
A flower needs a lot of stuff to grow
And so the Torah and misvot I must know!*

*I grow so much can't you see?
I learn Torah that is just for me!
I learn Torah, can't you see?
We grow and grow like the sea.*

*I am like a small tree
Because just like the trees need
sunlight to grow
I need Torah to continue growing.*

*Once I looked out my window
There was a tree
The tree was bigger than me!
It was so high
It could reach the sky!
I really don't know why
This was once a tiny seed
Hashem made it
grow into this tree
That's why it's bigger than me.
Can't you see?*
